### Reading comprehension ( 20M)

**Read the following passage carefully , then answer the questions below:**

A person who would build up a wide circle of friends, must always be ready to help them. Enjoying life and being happy will make you a more interesting person. If you are bored with life, you cannot expect people to find you interesting. Nor will they like you, if you are hopeless and sad. Life is difficult enough and people want to laugh not to weep and cry. Getting along with people is like going on a picnic if you went on a picnic and one brought sandwiches, another a cake and so on and you didn't bring anything, you would feel uncomfortable. It's the same with people. Before you can make friends with others, you must first make friends with yourself and accept yourself as you really are.

People are a mixture of good and evil. As we accept the evil in ourselves, we must accept both the good and evil in others. The sun is both good and evil because **it** gives us food, health and beauty but it also burns the earth bringing **famine** and death. Try to put your friends' interests before your own. You can make friends by being honest, sympathetic and helpful. Keep in your mind that you cannot live without friends .To be without friends is to suffer loneliness and insecurity like a man living in a desert island.

**A):From a , b , c and d choose the right answer: (3X2 = 6 M )**

1) The underlined word **famine** means -----

**Summary Making ( 8Marks )**

The zipper is a wonderful invention .It is very common. It is very strong but it opens and closes very easily. It comes in many colours and sizes.

Judson invented the zipper in 1893 . He was an engineer in Chicago . He called the zipper a slide faster. However, it didn't stay closed very well. This was embarrassing , and people didn't buy many of them. Then, Dr. sundback solved the problem by putting the hooks on the stripes together. The cloth holds the hooks in place. They don't come apart very easily.

A zipper has three parts . There are dozens of metal or plastic hooks . These are fastened to two stripes of cloth. The cloth stripes are flexible . They bend easily . A fastener slides along and fastens the hooks together. When it slides the other way, it takes the hooks apart.
