Paper2

I have returned to my hometown of Wilson Creek after an **absence** of 10 years. So many things have changed around here. When I left Wilson Creek, there was a small pond on the right as you left town. They have filled in this pond and they have built a large shopping mall there. There is a baseball stadium on the outskirts of Wilson Creek which has been changed completely. They have now added a new **stand** where probably a few thousand people could sit.

The biggest changes have taken place in the downtown area. They have pedestrianised the centre and you can't drive there anymore. A European-style fountain has been built and some benches have also been added along with a grassy area and a new street cafe. My street looks just the same as **it** always has but a public library has been built in the next street along. There used to be a great park there but they have cut down all the trees which is a pity. The library now has a large green area in front of it but it's not the same as when the park was there.
