

21. Media can promote social cases. Mention some of these cases.

It can promote literacy, health management, and awareness against drugs.

Any reasonable answer is accepted

B. Literature Time: (David Copperfield)

Answer only ONE of the following questions : (1x4 =4)

22. How should we treat the orphan children who lost their parents?

We should treat them kindly, help them, advise them and be like parents to them.

23. If you had the chance to study in a boarding school, would you accept or reject?

Why?

Yes, it will be a good chance to depend on myself .

I will learn the life of discipline and regulations.

No, it will be hard to live away from my family .

I need my parent's love , advice and guidance .

V- Writing (30 marks)

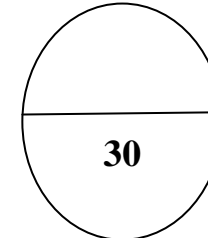

Television is one of the most effective means of mass media. It affects our life mainly.

Plan and write a report of about (12) sentences (140 words) showing the importance of television and how we can make the best use of it.

These ideas may help you:

- The advantages and the disadvantages of watching TV on people and children.
- Your suggestions for avoiding the negative effects of watching TV for a long time.
- How can TV be used as teaching aids for students and as a teaching tool for them?

Your report should include an introduction, a body and a conclusion.

Rubrics for Checking Composition	Items	Mark	Total Mark
- Pre-writing techniques (outlining):	3		
- Exposition of ideas, paragraphing and number of sentences:	23		
- Spelling and structure:	2		
- Handwriting, spacing and punctuation:	2		
- 8 marks to be deducted from the total mark for changing the format.			
- Off point topics receive zero.			

II- Reading Comprehension (40 marks)**Read the following passage carefully, then answer the questions below:**

40

When we are young, we learn that tigers and sharks are dangerous animals. We might be scared of them because they are big and powerful. As we get older, however, we learn that sometimes the most dangerous creatures are the smallest ones. In fact, the creature that kills the most people every year is the mosquito. Male mosquitoes eat plant nectar. On the other hand, female mosquitoes feed on animal blood. They need this blood to live and produce eggs. When a female mosquito bites a human being, it **transmits** a small amount of *saliva into the blood. This saliva may or may not contain a deadly disease. The result of the bite can be as minor as an itchy bump or serious as death.

Because a mosquito can bite many people in the course of its life, it can carry diseases from one person to another very easily. Two of the most deadly diseases carried by mosquitoes are malaria and yellow fever. More than 700 million people suffer from these diseases every year. At least 2 millions of these people will die from these diseases. Many scientists are working on safer and better ways to kill mosquitoes, but so far, there is no sure way to protect everyone in the world from their deadly bites.

Mosquito nets can be placed over beds to protect people against being bitten. These nets help people stay safe at night, but **they** do not kill any mosquitoes. Mosquitoes have many natural enemies like bats, birds, and certain kinds of fish. Bringing more of these creatures into places where mosquitoes live might help to cut down the amount of mosquitoes in that area. This is a natural solution. Mosquitoes can be killed with poisons or sprays. Even though these sprays kill mosquitoes, they may also harm other plants or animals. Although mosquitoes may not seem as scary as powerful animals, they are far more dangerous to human beings. But things are changing. It is highly likely that one day scientists will find a way to keep everyone safe from mosquitoes and the diseases they carry.

(* **Saliva** = the watery liquid that forms in the mouth and helps to chew and digest food)

A) From a, b, c and d, choose the correct answer: (4x4^{1/2}=18 marks)

24. The main idea of the passage is about.....
- being scared of dangerous animals.
 - the course of life of mosquitoes.
 - mosquitoes as the most dangerous creatures to human beings.**
 - keeping people safe from mosquitoes.
25. Based on the passage, we can understand that.....
- poisons and sprays are the safest protection against mosquitoes.
 - scientists have found ways to keep us safe from mosquitoes.
 - the more people a mosquito bites, the easier diseases are transmitted.**
 - mosquito nets can help mosquitoes produce eggs.
26. The underlined word **transmit** means.....
- | | |
|---------------|---------------|
| a. to pass on | b. to produce |
| c. to protect | d. to reduce. |
27. The underlined word **they** in paragraph 3 refers to.....
- | | |
|----------------------|-------------------------|
| a. natural enemies | b. mosquito nets |
| c. poisons or sprays | d. dangerous animals |

B) Answer the following questions: (3x4=12 marks)

28. Why is a mosquito bite so harmful ?
Because it can carry diseases from one person to another very easily.
29. according to the passage, what is the natural solution to fight mosquitoes?
By Bringing more of its natural enemies like birds and bats into places where mosquitoes live.
30. What is the major difference between male and female mosquitos ?
Male mosquitoes eat plant nectar while female mosquitoes feed on animal blood.

C) Summary Making (10 marks)

With reference to the first paragraph and in not less than 4 sentences of your own, summarize the paragraph in answer to the following question:

Why are mosquitoes the most dangerous creatures?

The following points should be mentioned:

- Mosquitoes can lead to many dangerous diseases like malaria.
- They might cause death to many people.
- Their bites can be as minor as an itchy bump or serious as death.
- They feed on blood to live and produce eggs.

IV- Translation (10 Marks)

10

A) With reference to the reading passage, translate the following into good Arabic:
(6 marks)

Because a mosquito can bite many people in the course of its life, it can carry diseases from one person to another very easily. Two of the most deadly diseases carried by mosquitoes are malaria and yellow fever. More than 700 million people suffer from these diseases every year. At least 2 millions of these people will die from these diseases.

لأن البعوضة تستطيع أن تعض كثير من الناس على مدى عمرها، فإنها تستطيع نقل الأمراض من شخص لآخر بكل سهولة. إثنين من أخطر الأمراض التي تنقلها البعوضة هي الملاريا و الحمى الصفراء. أكثر من 700 مليون شخص يعانون من هذه الأمراض كل سنة. على الأقل 2 مليون من هؤلاء الناس سيموتون من هذه الأمراض.

B) Translate the following into good English: (4 marks)

نور: تضمن دولة الكويت ودستورها حرية الصحافة في حدود القانون

Noor: Kuwait and its constitution guarantee the freedom of press within the limits of law.

هبة : هذا صحيح فلقد احتلت الكويت المركز الثاني لحرية الصحافة في الشرق الأوسط

Heba: That's right, Kuwait was ranked the second in the Middle East in the freedom of Press.
